HD MEDICAL, INC. LAUNCHES NEW WEBSITE

Features New Educational Video Series from ACC.13 Heart & Sound Industry Event

Sunnyvale, CA – July 8, 2013 – HD Medical, Inc. announces the launch of their new website which profiles the innovations of this medical device research and development leader. The website provides an in-depth overview of the company's flagship product, the [ViScope®](#) Visual Stethoscope.

An Industry first, the ViScope enables Dynamic Auscultation™ seeing what you hear. The ViScope's integrated visual display lets medical professionals see the heartbeats they hear in real-time waveforms. This powerful visual stethoscope is examined at length in the [ACC.13 Heart & Sound videos](#) found on the website featuring industry experts such as Dr. Nelson Schiller, M.D., F.A.C.C., UCSF Department of Medicine, Division of Cardiology.

ViScope is used by General Practitioners, Internists, Nurses, Cardiologists, and Physicians Assistants at leading medical institutions. It is also uniquely suited for rapid patient screening and triage situations for EMS personnel and Paramedics. "The ViScope is the next generation auscultation device creating a superior clinical diagnostic environment." states Dr. Nelson Schiller.

The ViScope is available for purchase for only \$399.00 on the new HD Medical website or from an authorized reseller. To learn more about HD Medical and the ViScope please visit www.hdmedicalgroup.com.
